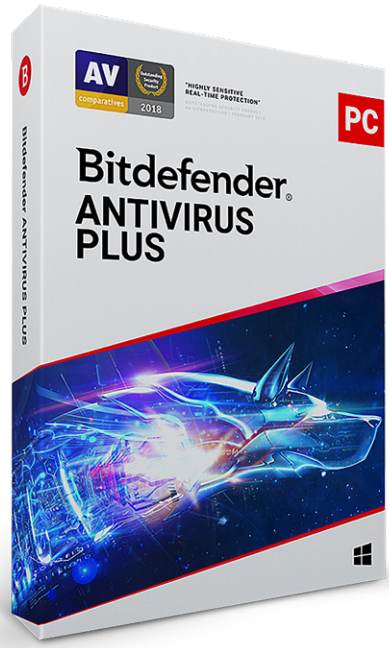
Bitdefender®
ANTIVIRUS PLUS



Supreme security, light on resources

Bitdefender Antivirus Plus packs the next-gen cybersecurity that won the “Outstanding Product” award from AV-Comparatives. It protects Windows PCs against all types of online threats, and includes privacy tools such as Bitdefender VPN and Bitdefender Safepay.

- Best protection against all threats[1]
- Performance without slowdowns for Fastest System Speed [2]
- Bitdefender VPN protects your privacy on all devices
- Detects ransomware-like behaviour and block its execution
- Prevent unauthorized changes to your most important files with Safe Files

Best Protection. Best Performance.

Best Protection Against Infections[3] (on a scale of 0 to 6 and 6 being the highest protection). Overall Score. Bitdefender Internet Security. January 2011 - February 2019. AV TEST.

Lowest Impact on Performance[4] (on a scale of 0 to 6 and 6 being the lowest impact). Overall Score. Bitdefender Internet Security. January 2013 - February 2019. AV TEST.

Bitdefender protects its users’ privacy, as well as their devices.
Our award-winning security technologies protect against all cyber-threats today, from annoying adware to dangerous malware that infiltrates to steal data, intercept online payments, spy, or hold your information for ransom.

Bitdefender

Our continuing mission: to keep our users safe from digital dangers, to create industry-leading technology, and do all that while being absolutely easy to use. We took our technology one step further: we made it smart and proactive.
The best defense is to innovate.

Total protection for Windows

Unbeatable malware detection

Optimized performance preserves speed and battery life

Anti-ransomware keeps your files safe

Multi-Layer Ransomware Protection

Bitdefender's multi-layered approach against ransomware includes a data-protection layer that safeguards your documents, pictures, videos, and music against any kind of ransomware attack. In conjunction with the Advanced Threat Defense module, it protects your most important files from encryption by ransomware.

Network Threat Prevention

The network-based adaptive layer of protection prevents exploitation of vulnerabilities in your system, detects and blocks brute-force attempts, prevents your device from being compromised in botnet attacks and prevents sensitive information from being sent in unencrypted form.

AV comparatives — Outstanding Security Product — 2018

AV-COMPARATIVES | FEBRUARY 2019

"The suite impressed us with its clean, well-designed user interface and very sensitive real-time protection."[5]
